

MINISTRY OF EDUCATION AND SCIENCE OF UKRAINE

National Technical University of Ukraine

"Kyiv Polytechnic Institute"

Individual learning plan

undergraduate Kiriyenko Olga

Scientific adviser: Ph.D. Kosohina I.V.

Topics of scientific research: Principles of creation of multifunctional sorbents  
from waste alumina production

Work Plan for II year of study

1. In accordance with the curriculum for the 2015/2016 academic year.
2. Structuring and description of the main techniques used in the experimental studies.
3. Conduct of experimental studies, the establishment of sorbents from waste.
4. Check the effectiveness of the technology created sorbents in treating wastewater.
